[Outline for final documentations package 070916 Ver3.docx](#)

Hi Michelle,

Here is the outline with for both final documentation package. I changed one of the headers in the outline to:

‘How my residence is considered safe?’ To ‘Is my residence safe? Yes!’

Feel free to use it or not.

Also I didn’t add it on the outline but would recommend having a ‘What happens now to the site’ and/or ‘Contact Information’ as the last item. I included a rough draft of the documentation package (it is not complete) in case that is helpful for others.

I am reviewing the press release and will send it to Rusty who will review it early tomorrow. Let me know if there is anything else you need!

Thanks,

Elena
